What's the difference between syrup grades?

It's all about the taste! True, there's a difference in the syrup color between the grades, with the lighter syrups being Grade A Golden and Grade A Amber, and darker syrups being Grade A Dark and Grade A Very Dark. The lighter the syrup color, the lighter the maple taste. Which one is the best? That's up to you!

Plymouth Cheese

Plymouth Cheese makes classic raw-milk waxed cheddars that have well balanced flavor profiles, using recipes going back to the late 19th century and that originated with the Coolidge (as in US president, and native Vermonter, Calvin) family. 8 oz waxed bars.

Original - aged 1 year, and based closely on a Coolidge family formula discovered in the original Plymouth Cheese Factory. A well balanced cheese with a sharp, rich flavor profile.

Hunter cheddar - aged for two years and with some bite - is a traditional sharp Vermont cheddar, perfect for enjoying on a autumn afternoon with a freshly picked, tart apple - or at any time when a sharp cheddar fits the bill.

Smoked - A smooth raw-milk cheddar, aged for 60 days and then cold-smoked over hickory wood, a process that yields a mild yet distinctive flavor profile.
